CAREER OVERVIEW

Software Developer with 2 years of experience writing **Rails** applications. Loves Ruby, but has no problem jumping into projects using other languages. Experience with **JavaScript**, **Objective-C**, **Swift**, **PHP**, along with many libraries and frameworks associated with them. **Gem maintainer** of Judge and Place Bear.

I'm experienced in the **full-stack**. Including setting up the server with capistrano, application architecture with rails, and user facing design implementations with html/haml/slim and css/scss. My favorite books that I read every year are *Eloquent Ruby* and *POODR*. I spend most of the last 2 years learning how to write **concise Ruby** and I find **more interest in application design/architecture** these days.

EXPERIENCE

OSS Gem Maintainer for [Judge Gem](#) and **creator/maintainer** of [PlaceBear Gem](#)

Metova Inc.

Rails Developer - remote

- Helped build out new features for web portal and the JSON API of an exercise app that connects to exercise equipment at the client's facility. [**rails-admin**, **devise**, **active_model_serializers**]
- built MPV web app and API for a video recording and video merging app [**FFMPEG**, **refile**, **AWS EC2/S3/Route53/cloudfront**]
- set up SSO provider for Yale's family of smart home apps. Built digital door view web app and API [**CASino**, **active_model_serializers**]

FINE Design Group

Rails Developer - Portland, OR

- Streamlined 3 separate tasks into modularized processes/gems in order to develop at 10x
- Helped build Rails Engine as a gem that streamlined our process for building CMS's
- Built back-end for www.sevenfallscellars.com
- Added automated test suite to Rails 3.2 legacy ecommerce app
- Took over majority of bug fixes and feature updates for long standing client with 30+ apps

EDUCATION AND TRAINING

2013 Code Fellows iOS

Completed an 8 week long intense introduction to iOS course. I learned Objective-C and submitted an app to the app store in just 4 weeks. Also worked on a group project gaining experience in agile strategies and source code collaboration

2013 Self Studying

Well versed with the art of reading documentation, Stack Overflow, and google searching. Has about 2 years of experience comprised of reading technical books and implementing those skills. I also used codecademy.com, codeschool.com, lynda.com, as well as various other videos on the Internet. Built responsive javascript quiz app and hosted it at <http://dannysperry.github.io>.
